TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1951 C. C. C. Grain Price Support Bulletin 1, Amdt. 1 to Supp. 1, Wheat]

PART. 601—GRAINS AND RELATED COMMODITIES

SUBPART—1951-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

The regulation issued by Commodity Credit Corporation and the Production and Marketing Administration published in 16 F. R. 2777, and containing the specific requirements for the 1951-crop wheat price support program is hereby amended as follows:

Section 601.1218 *Determination of support rates* is amended by changing the requirements in paragraph (a) *Support rates at designated terminal markets* for wheat shipped by rail or water, or received by truck and stored at certain designated port terminal markets when neither registered freight bills nor such freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, so that the paragraph (a) reads as follows:

(a) *Support rates at designated terminal markets.* (1) Wheat eligible for loan or purchase at the support rate established for designated terminal markets must have been shipped on a domestic interstate freight rate basis. On any wheat shipped at other than the domestic interstate freight rate, the support rate at the designated terminal

market shall be reduced by the difference between the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

The support rates established for designated terminal markets apply to wheat which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(2) When shipped by rail or water and stored at any designated terminal market, except the terminal markets listed in subparagraph (3) of this paragraph, wheat for which neither registered freight bills nor such freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 8 cents per bushel.

For wheat received by truck and stored at any designated terminal market, except the terminal markets listed in subparagraph (3) of this paragraph, the support rate shall be determined by making a deduction from the terminal rate as follows:

Terminal located in—	Amount of deduction (cents per bushel)
Area I: Arizona, California, Idaho, Minnesota, Montana, Nevada, North Dakota, Oregon, South Dakota, Washington, Utah	12½
Area II: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin	13
Area III: Connecticut, Delaware, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia	14
Area IV: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas	14

(3) When shipped by rail or water and stored at any of the following terminal markets Galveston, Houston, Texas; Los Angeles, San Francisco, Oakland, California; Philadelphia, Pennsylvania; Portland, Astoria, Oregon; Seattle, Longview, Tacoma, Vancouver, Washington; Baltimore, Maryland; New Orleans, Louisiana; Norfolk, Virginia; wheat for which neither registered freight bills nor such freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the applicable terminal rate.

For wheat received by truck and stored at any of the above terminal markets, the support rate shall be determined by

making a deduction from the terminal rate as follows:

Terminal	Amount of deduction (cents per bushel)
Los Angeles, San Francisco and Oakland, California; Portland and Astoria, Oregon; Seattle, Longview, Tacoma and Vancouver, Washington	4½
New Orleans, Louisiana; Baltimore, Maryland; Philadelphia, Pennsylvania; Galveston and Houston, Texas; Norfolk, Virginia	6

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 372, Amdt. 1]

PART 966—ORANGES GROWN IN CALIFORNIA OR IN ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the provisions of Order No. 66 (7 CFR Part 966) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the size of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the

State of California or in the State of Arizona, are currently subject to regulation by size pursuant to said amended order; the recommendation as to the need for changing the level of such size regulation not later than June 17, 1951, in order to effectuate the declared policy of the act was made at the meeting of the said committee on June 7, 1951, after consideration of all available information relative to the supply and demand conditions for such oranges, and such recommendation and supporting information was promptly submitted to the Department; the said meeting of the committee was held after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this amendment to Regulation 372, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; and compliance with this amendment will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

It is, therefore ordered as follows:

The provisions in paragraph (b) (2) of § 966.518 (Orange Regulation 372) (16 F. R. 4678) shall, during the period beginning at 12:01 a. m., P. s. t., June 17, 1951, and ending at 12:01 a. m., P. s. t., January 1, 1952, read as follows:

(2) During the period beginning at 12:01 a. m., P. s. t., June 17, 1951, and ending at 12:01 a. m., P. s. t., January 1, 1952, standard size 288 is fixed as the minimum size of Valencia oranges, grown in Prorate Districts 1, 2, 3 and 4 which may be handled.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C. this 11th day of June 1951.

Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

PART 42—VISAS: DOCUMENTATION OF ALIENS ENTERING THE UNITED STATES

WAIVER OF DOCUMENTARY REQUIREMENTS

The following amendment to Part 42, Chapter I, Title 22, Code of Federal Regulations, is hereby prescribed:

Paragraph (bb) of § 42.107, *Nonimmigrants not required to present passports or visas*, is amended to read as follows:

(bb) An alien who is a Canadian citizen, or who is a British subject domiciled, permanently residing, or stationed in Canada, who proceeds directly from the United States or Canada to Cuba, the

Bahama Islands, Bermuda, or Jamaica, who remains less than thirty days in each of such islands visited, and who seeks to enter the United States temporarily before returning to Canada: *Provided*, That the period for which such citizen or subject may be admitted into the United States shall not exceed the period of admission prescribed by paragraph (w) and paragraph (q), respectively, of this section.

This order shall become effective upon the date of its publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulation contained therein involves foreign-affairs functions of the United States.

(Sec. 24, 43 Stat. 166, sec. 37, 54 Stat. 675; 8 U. S. C. 222, 458. E. O. 8766, June 3, 1941, 6 F. R. 2741; 3 CFR 1941 Supp.)

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

ARMY PROCUREMENT PROCEDURE; MISCELLANEOUS AMENDMENTS

The following amendments to Subchapter G are issued.

PART 590—GENERAL PROVISIONS

Part 590 is amended as indicated below:

1. Section 590.705-3 is rescinded and the following substituted therefor:

§ 590.705-3. *Use of Form 383 as a delivery order—(a) Open end contracts.* Form 383 is authorized for use in making purchases under all "open end" or "term" contracts which provide that deliveries will be made upon call of Contracting Officers, where the aggregate amount of the delivery order does not exceed \$1,000.

(b) *Reference to basic purchase agreement.* Proper reference will be made to the basic purchase agreement against which the purchase is made in the space provided.

(c) Consolidation of deliveries into one monthly delivery order. (1) One delivery order may be accomplished at the end of the month or more often if necessary to cover previous deliveries against "open end" or "term" contracts under the following conditions:

(i) When, in the judgment of the Contracting Officer, such action is more practical and economical than the making of separate delivery orders.

(ii) When the local Contracting Officer who issues the delivery order has made satisfactory arrangements with the vendor or his authorized representative.

Since the accumulation and consolidation of deliveries into one delivery order at the end of the month may result in a delayed payment, such action must be agreeable to the vendor.

(2) When such practice is to be followed, each delivery of supplies or services will be supported by a signed delivery ticket prepared in triplicate by the vendor. The following information will be shown on the delivery ticket:

- (i) Name of contractor.
- (ii) Contract number.
- (iii) Nomenclature of supplies or services including stock number, part number, etc., as necessary for proper identification.
- (iv) Quantity of supplies or services.

In the event that the vendor does not furnish a delivery ticket, the individual who receives the supplies will prepare a receiving report (DD Form 227) showing the essential information thereon.

(3) The quantity listed on the delivery ticket will be verified, exceptions noted, and the three copies of the ticket will be dated and signed by the individual who is authorized to receive the items. Copies will be distributed as follows: Original to the accountable property officer, one copy to the Contracting Officer, and one copy to the vendor.

(4) The accountable property officer will voucher and post to the stock record account each delivery ticket covering supplies received. A basic voucher number will be assigned to each vendor and as deliveries are received during the current month the individual delivery ticket will be subvouchered against the basic voucher number established for the vendor concerned.

(5) The signed copy of the delivery tickets will be the basis for consolidating the deliveries and preparing one delivery order at the end of the month by the Contracting Officer. The vendor will be instructed to submit one invoice (4 copies) for the period concerned.

(6) The accomplishment and processing of DA Form 383 will be as prescribed in this subpart.

2. Section 590.809 (d) is amended by rescinding subparagraph (4) thereof.

PART 591—PROCUREMENT BY FORMAL ADVERTISING

Section 591.251 (c) is amended by changing the reference "§ 591.406-4 (c)", appearing therein, to read "§ 591.406-4 (b)".

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 42, Amendment 1]

CPR 42—CEILING PRICES FOR CERTAIN CANNED VEGETABLES OF 1951 SPRING PACK

PRICING OF ADDITIONAL VEGETABLES

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.) Executive Order 10161 (15 F. R. 6105), and Economic Stabilization General Order No. 2 (16 F. R. 738) this Amendment 1 to Ceiling Price Regulation 42 (16 F. R. 5112), is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds canned broccoli, brussels sprouts, new potatoes, fresh field peas, and rhubarb, to Ceiling Price Regulation 42, thus completing the list of canned vegetables which will be priced under the 1951 spring pack vegetable regulation. These vegetables were not included in CPR 42 at the time of its issuance as additional pricing information was needed.

The same considerations for the issuance of CPR 42 are applicable to the canned vegetables added to the regulation by this amendment and the statement of considerations accompanying CPR 42 is accordingly incorporated herein by reference.

As in the case of vegetables covered by the original CPR 42, permitted cost increases for raw materials are limited to actual cost increases, but in no event may these increases exceed 20 percent of each canner's 1950 weighted average raw material cost for the particular vegetable, except in the case of potatoes. For potatoes, the permitted increase may not exceed 75 percent of each canner's 1950 weighted average raw material cost of potatoes for canning.

No parity prices have been determined by the Secretary of Agriculture for the vegetables subject to this amendment except potatoes, for which parity has been determined only for all uses of potatoes. The permitted percentage increase of 20 percent for all vegetables except potatoes under this amendment is based upon changes during the past year in grower prices, prices received for all farm products, and upon the percentage increase of parity as of March 15, 1951, over 1950 prices for the eleven vegetables for which the Secretary of Agriculture has determined a parity price. The 75 percent percentage increase for potatoes for canning is the amount of the increase of the May 15, 1951 parity price for potatoes for all uses over the 1950 seasonal average price.

These increases also take into account the fact that these vegetables, when sold for fresh use, are exempt from price control under the General Ceiling Price Regulation. The permitted increases for raw materials under this regulation are therefore designed to maintain the price relationships of these vegetables with other vegetables and for other uses and to satisfy any applicable requirements

of section 402 (d) (3) of the Defense Production Act.

In issuing this amendment the Director of Price Stabilization has consulted with the industry represented and has given consideration to its recommendations. The Director finds that in his judgment the provisions of this amendment are generally fair and equitable and will effectuate the purposes of the Defense Production Act of 1950.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 10 extends to the manufacturer in the territories and possessions of the United States the same permission to request an upward adjustment of ceiling prices in the event he is being forced to operate his business at a loss, as has already been granted manufacturers in the 48 states and the District of Columbia.

Ceiling prices, although generally fair and equitable to the group which they cover, sometimes work hardships on individual members of the group. GOR-10 is intended to remedy this situation by providing for individual adjustments where a manufacturer shows that he is operating at a loss, and that the loss is due to the ceiling price, and not to some other factor. It is essential for the healthy economy of the territories and possessions that the manufacturers in the territories and possessions have the same recourse to request increases under the same condition as would manufacturers in the 48 states and the District of Columbia.

AMENDATORY PROVISIONS

General Overriding Regulation 10 is amended so that section 8 reads as follows:

SEC. 8. Geographical applicability. The provisions of this regulation are applicable to the United States, its territories and possessions, and the District of Columbia.

(Sec. 704, Pub. Law 774, 81st Cong.)

Effective date. This amendment is effective June 13, 1951.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour and Public Contracts Divisions

[41 CFR, Part 202]

PAPER AND PULP INDUSTRY; PREVAILING MINIMUM WAGE

NOTICE OF HEARING ON PROPOSED AMENDMENT

The Secretary of Labor, in an amended minimum wage determination issued pursuant to the provisions of the Walsh-Healey Public Contracts Act (act of June 30, 1936, 49 Stat. 2036, 41 U. S. C. 35-45) and effective January 25, 1950 (15 F. R. 382), determined that the minimum wage for persons employed in the performance of contracts with agencies of the United States Government subject to the act for the manufacture or furnishing of the products of the Paper and Pulp Industry shall be not less than 75 cents per hour. This amended determination was based upon information indicating that substantially all employees in the Paper and Pulp Industry are engaged in commerce or in the production of goods for commerce, as defined in the Fair Labor Standards Act, and that as a consequence the Fair Labor Standards Amendments of 1949 require payment of a wage rate of not less than 75 cents per hour to substantially all employees in the Industry. This amended determination also provided that learners might be employed at subminimum rates in accordance with regulations of the Administrator of the Wage and Hour Division of the Department of Labor under section 14 of the Fair Labor Standards Act (29 CFR Part 522).

A wage survey of selected paper and pulp establishments made by the Bureau of Labor Statistics as of May 1950 indicates that the 75-cent rate now in effect may not reflect the prevailing minimum wages in the Industry; and it is proposed, therefore, to hold a hearing for the purpose of consideration by the Secretary of Labor of an amendment of the current determination.

The Paper and Pulp Industry, as defined in the current determination, is that Industry engaged in the manufacture of furnishing of pulp and other fiber and in the primary conversion of pulp and other fiber into paper and paperboard, and in the manufacture and

conversion of primary paper into toilet paper and paper towels, coated book paper and paper shipping sacks.

Now, therefore, notice is hereby given: that a public hearing will be held on July 11, 1951 at 10:00 a. m., in Room 1214 of the Department of Labor, Constitution Avenue and Fourteenth Street NW., Washington, D. C., before the Administrator of the Wage and Hour and Public Contracts Divisions or a representative designated to preside in his place, at which hearing all interested persons may appear and submit data, views and arguments: (1) As to what are the prevailing minimum wages in the Paper and Pulp Industry; (2) as to whether there should be included in any amended determination for this Industry provision for employment of learners, beginners (or probationary workers), or apprentices at subminimum rates, and if so, in what occupations, at what subminimum rates, and with what limitations, if any, as to length of period and number or proportion of such subminimum rate employees; and (3) as to whether the definition of the Industry should be amended to read as follows:

The Paper and Pulp Industry is defined as that Industry which manufactures or furnishes any of the following products: Pulp from wood or from other materials such as rags, linters, waste paper and straw; paper from wood pulp and other fibers; paperboard from wood pulp and other fibers; building paper and building board except gypsum products; paper bags; and sanitary paper such as facial tissues, toilet paper, paper napkins and paper towels.

Persons intending to appear are requested to notify the Administrator of their intention in advance of the hearing. Written statements in lieu of personal appearance may be filed by mail at any time prior to the date of the hearing, or may be filed with the presiding officer at the hearing. An original and four copies of any such statement should be filed.

Tabulations of wage data released by the Bureau of Labor Statistics as of January 15, 1951, as well as other tabulations prepared by that Bureau at the request of the Wage and Hour and Public Contracts Divisions, will be made available to interested persons upon request to the Wage and Hour and Public Con-

tracts Divisions, United States Department of Labor, Washington, D. C. Interested persons are invited to submit wage data, including data as to changes which have taken place in the wage structure of the Industry since the time of the survey.

In the discretion of the presiding officer, a period not to exceed 30 days may be allowed for the filing of comment on the evidence and statements introduced into the record of the hearing. If such supplemental statements are received an original and four copies of each should be filed.

Signed at Washington, D. C., this 7th day of June 1951.

Administrator, Wage and Hour
and Public Contracts Divisions.

[Docket No. 9991]

STANDARD BROADCAST STATIONS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 3, Subpart A, of the Commission's rules and regulations and Part 1 of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations to eliminate provisions relating to the assignment of Class IV stations to regional channels.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend Subpart A of Part 3 of the Commission's rules and regulations by deleting § 3.29 and Part 1 of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations by eliminating from the seventh paragraph thereof, appearing at the top of the second column on page 2, the provisions relating to the assignment of Class IV stations to regional channels. Paragraph 7, as amended, will read as follows:

Class IV stations operate on local channels, normally rendering primary

service only to a city or town and the suburban and rural areas contiguous thereto with powers not less than 0.1 kw or more than 0.25 kw. These stations are normally protected to 500 uv/m groundwave contour daytime. On local channels the separation required for the daytime protection shall also determine the nighttime separation. The actual nighttime limitation will be calculated.^{3a} Class IV stations authorized to operate on regional channels prior to (effective date of amendment if adopted) will not be required to change frequency or increase power but will not be protected against interference from Class III stations.

[No change in footnote 3a.]

It is also proposed to amend Table IV of Part 1 of the Standards by deleting therefrom footnote 6 which reads as follows: "Class IV stations may also be assigned to regional channels according to § 3.29."

3. The assignment of stations with powers of less than 500 watts to regional channels is inconsistent with the Commission's basic allocation plan for the standard broadcast band and tends to

result in an inefficient utilization of available frequencies. At the present time the Commission's rules and standards provide for such assignments under certain limitations which are intended to insure the full utilization of regional channels. The Commission's experience indicates that these limitations do not effectively achieve their intended purpose. Moreover, the present rules and Standards provide that Class IV stations assigned to regional channels shall not be protected from interference from Class III stations. Thus, they permit the establishment of stations whose service is of marginal quality at best and subject at any time to further degradation. The Commission is, therefore, of the opinion that the assignment of Class IV stations to regional channels under any circumstances should be discontinued.

4. Authority for the proposed amendments is contained in sections 303 (a) (b), (c), and (r) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth, may file with the Commission, on or before July

16, 1951, a written statement or brief setting forth his comments. At the same time persons favoring the amendments as proposed may file statements in support thereof. Answers to comments may be filed within 30 days of the last day for the filing of comments. The Commission will consider all comments that are received before taking final action in the matter, and if any comments appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given interested parties.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, comments, or answers thereto shall be furnished the Commission.

Adopted: June 7, 1951.

Released: June 8, 1951.

INCOME FOUNDATION FUND, INC., AND AXE
SECURITIES CORP.

NOTICE OF APPLICATION; STATEMENT OF
ISSUES; ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 8th day of June A. D. 1951.

Notice is hereby given that Income Foundation Fund, Incorporated (hereinafter sometimes referred to as "Fund"), a registered investment company and Axe Securities Corporation (hereinafter sometimes referred to as "Axe Securities") the prospective principal underwriter for the Fund (the Fund and Axe Securities Corporation being hereinafter sometimes referred to as "Applicants") have filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 22 (d) of the act, the proposed offering of shares of the Fund to charitable and religious organizations, hospitals, colleges and other eleemosynary institutions including non-profit organizations such as pension funds, on the basis of one-half of the regular sales load set forth in the Fund's prospectus.

The application states that the Fund is registered under the Act as an open-end diversified investment company of the management type and issues redeemable securities. Axe Securities Corporation is the principal underwriter and general distributor of the shares of the Fund. The regular public offering price of the shares of the Fund is equal to their net asset value per share plus a sales load. Quantity discounts are presently available to purchasers with respect to individual purchases of \$25,000 or more of the Fund's shares upon the following schedule:

On individual sales of—	Sales load percentage of offering price
Less than \$25,000.....	8½
Not less than \$25,000.....	6
Not less than \$50,000.....	4
Not less than \$100,000, but less than \$250,000.....	2
Not less than \$250,000, but less than \$500,000.....	1
\$500,000 or more.....	½

Such scale of quantity discounts is set forth in the Fund's prospectus. As set

forth in the application, the Fund proposes to offer its shares to charitable and religious organizations, hospitals, colleges and other eleemosynary institutions including non-profit organizations such as pension funds, at prices which include sales loads equal to one-half ($\frac{1}{2}$) of those set forth in the schedule above.

The application further states that, "as it is a customary practice in many businesses and other lines of endeavor to grant concessions to such organizations as set forth above because of their being operated for their respective charitable, religious, educational, public health and other non-profit purposes, it is therefore the desire of the applicants to give such organizations a similar concession by permitting them to purchase shares of this Fund on the basis of one-half of their regular sales load."

The Applicants assert that the order of exemption herein requested is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy provisions of the Act.

All interested parties are referred to said application, which is on file in the offices of the Commission, for a more detailed statement of the proposed transactions and the matters of fact and law asserted.

Section 22 (d) of the act, with certain exceptions not pertinent here, prohibits registered investment companies from selling their redeemable securities to any person other than a dealer or principal underwriter at prices less than that at which the security is offered to the public. The offering of shares of the Fund through the underwriter to charitable and religious organizations, hospitals, colleges and other eleemosynary institutions at one-half of the regular sales load set forth in the prospectus would appear to be unlawful in the absence of an order by the Commission granting an exemption to the applicants from the provisions of section 22 (d) of the Investment Company Act.

Section 6 (c) of the act provides that the Commission may by rules and regulations upon its own motion or by order upon application, conditionally or unconditionally, exempt any person, security or transaction or any class of classes of persons, securities, or transactions from the provisions of the act or any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

The Division of Corporation Finance has advised the Commission that upon a preliminary examination of the application it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination: (1) Whether the practice alleged by the Applicants to be customary in many businesses and other lines of endeavor "to grant concessions" to organizations of the above described character is unfair, discriminatory, and inconsistent with the policy of the Act particularly in the light of the provisions of sections 1 (b) (2) and 22 (d) thereof;

and (2) whether an order of exemption permitting discrimination in public offering price of the Fund's shares when purchased by organizations of the above described character is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the act.

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on July 2, 1951 at 10:00 a. m., e. d. s. t., Room 198 in the offices of the Securities and Exchange Commission, 425 Second Street, N.W., Washington, D. C.

It is further ordered, That Richard Townsend, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-named Applicants, Income Foundation Fund, Incorporated and Axe Securities Corporation, and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceeding should file with the Secretary of the Commission, on or before June 29, 1951 his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

Secretary.
